Our Achievements

Our focus on quality is clearly reflected in our product range and services that have resulted in building long lasting relationships with our clients all across the Country. Uncompromising quality checks at every stage right from procurement to final delivery has helped us deliver an unparalleled quality of service.

Our efforts to improve the quality of P F Bakelite Molding Powder have been well acknowledged by our customers.

Roxy Chemical & Plastic Industries

Our Infrastructure

We are equipped with the best infrastructure and latest technology to meet the global needs. Stringent quality control measures and prompt delivery have been our strength and identity. We have a well-equipped quality checking department to ensure that only the best quality bakelite is delivered to the customers. During production, sample attention is given to the minutest of all details.

Our product is checked at several phases before it is approved for packaging and dispatch. A major part of our achievements are also owed to the special attention that we give to the raw materials used for manufacturing. The raw materials are subjected to stringent quality checks before they are forwarded for further use.

Specialization

Colors available in all dark shades like Black, Red, Brown, etc. Special requirement for other specifications, models or colors are available against samples.

Roxy Chemical & Plastic Industries

Our Quality Assurance

Our sincere efforts towards maintaining the quality of our powders are reflected in the policies we follow. Using quality ingredients and employing latest techniques, we ensure that the processed powders are pure. We have also appointed quality experts , who follow TQM at each stage of production process.

With their help and latest testing instruments, we check our powders on following parameters:

- Accurate composition
- Efficacy
- Shelf life

Roxy Chemical & Plastic Industries

Our Team

We have immensely experienced professionals, who aid us in carrying out different business activities smoothly. Depending upon their expertise, we have appointed our professionals in different sections. The employees, operating in various sections, work in close proximity with a view to achieve set targets and goals.
